

INTRODUCING **SANISPRAY HPT™**

AIRLESS DISINFECTANT SPRAYERS

*High Production Airless Sprayers Designed Specifically to
Spray-Apply Chemicals to Sanitize, Disinfect and Deodorize Faster*

SANISPRAY HP AIRLESS SPRAYERS

MARKET NEEDS & CONDITIONS

- **COVID-19 pandemic is dominating the globe.** People are asked to stay home and social distance. Non-essential businesses are being asked to close to reduce virus transmissions.
- **Demand for disinfecting and sanitising currently at an all time high.** Demand will exponentially **increase** as schools, businesses and public spaces begin to open and cleaning standards become more strict
- Maintenance staff need **faster disinfecting tools** to address **new needs & requirements** - many are inventing their own solutions using tools designed for other applications
 - Improperly using Airless Paint Equipment to achieve a faster application process
- Currently available disinfectant equipment **lacks productivity and/or is unsafe** to use with required virus killing chemicals

THE OLD WAY

THE BETTER WAY

AS THE GLOBAL FLUID HANDLING LEADER, WE ARE OBLIGATED TO DELIVER SAFE AND EFFECTIVE TOOLS TO HELP THE FRONT LINE WORKERS FIGHTING THIS PANDEMIC.

SANISPRAY HP TARGET INDUSTRIES

ARENAS AND ATHLETIC FACILITIES

HOSPITALITY

TRANSPORTATION

FOOD SERVICE

HEALTHCARE

HOUSING, EDUCATION & CHILDCARE

EVERYWHERE.

PROVEN QUALITY. LEADING TECHNOLOGY.

SANISPRAY HP AIRLESS SPRAYERS

PRODUCT STRATEGY

- Develop a **complete equipment lineup** that allows maintenance professionals and property owners to **safely spray sanitisers, disinfectants and deodorisers** faster and safer with **consistent coverage**
- Deliver required **atomisation** with **consistent coverage** (without drips and runs) to achieve specified disinfectant surface dwell times required by chemical manufacturers
- Specifically selected materials of construction proven **compatible with the harsh chemicals** used to fight COVID-19
- All **new branding and product appearance** so as not be confused with Graco Paint Sprayers

SANISPRAY HP AIRLESS SPRAYERS

CURRENT MARKET SOLUTIONS

SPRAY BOTTLES & PUMP SPRAYERS

- ✓ Inexpensive, simple cleaning solutions
- ✓ Most popular method of cleaning
- ✗ Slow Manual Process
- ✗ Inconsistent coverage with drips and runs
- ✗ Additional step required to wipe area down
- ✗ Small reservoirs require frequent filling

ELECTROSTATIC SPRAYERS

- ✓ Provides consistent coverage on complex surfaces
- ✓ Speeds up process and reduces operator fatigue
- ✗ Small reservoirs require frequent filling
- ✗ Application process still relatively slow
- ✗ “One Product Fits all” application approach
- ✗ Limited “wrap” effectiveness
- ✗ High expense for limited production

FOGGING SPRAYERS

- ✓ Ability to cover open areas quickly (*Gas powered*)
- ✓ Offered in portable configurations
- ✗ Fogging relies on filling air inside room with disinfectant mist. Difficult to ensure proper coverage on all surfaces.
- ✗ Difficult to ensure cleaning dwell times are met
- ✗ Application process still relatively slow

**END-USERS ARE LOOKING FOR FASTER,
MORE EFFECTIVE & SAFER SOLUTIONS**

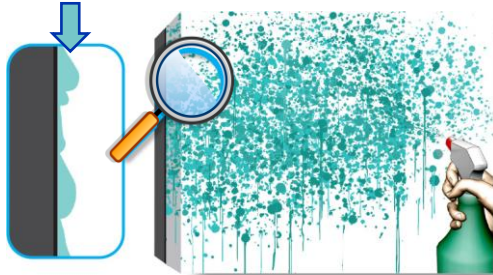

SANISPRAY HP

ATOMIZATION & COVERAGE COMPARISON

SPRAY BOTTLES & PUMP SPRAYERS

INCONSISTENT THICKNESS

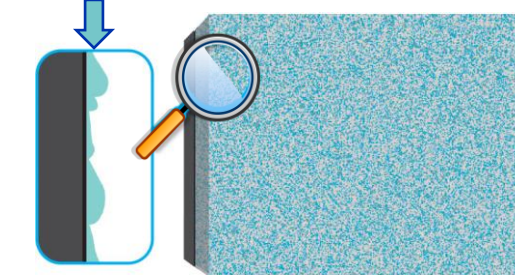

INCONSISTENT FINISH

- ❌ Inconsistent application coverage
- ❌ Not spraying complete surface
- ❌ Additional applications required to achieve complete surface coverage to meet chemical dwell time requirements
- ❌ Slow manual process

ELECTROSTATIC & FOG SPRAYERS

INCONSISTENT THICKNESS

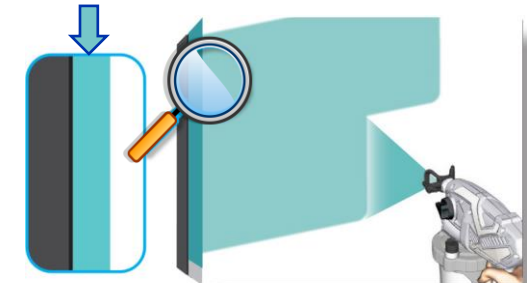

INCONSISTENT APPLICATION THICKNESS

- ❌ Does not completely coat a surface and may dry too quickly
- ❌ May require additional time and labor of wiping to be effective
- ❌ Electrostatic "wrap effect" varies depending on type of surface /grounding /wind/distance away

SANISPRAY HP

CONSISTENT COAT

CONSISTENT COVERAGE FROM EDGE TO EDGE

- ✓ Consistent application coverage delivered in high production or fine spray methods
- ✓ Complete surface coverage to meet chemical dwell time requirements
- ✓ Fastest application method – *Period*
- ✓ Choose from 17 RAC X LP QuickChange™ tip sizes to meet spray width and speed needs

Non-Alcohol Based— Aldehydes, Phenols, Quaternary Ammonium Compounds, Sodium Hypochlorite (Bleach), Peroxyacetic Acid, Hydrogen Peroxide, Hypochlorous Acid	✓	✓	✓	✓	✓

* SaniSpray HP 20 Corded Handheld sprayers cannot spray alcohol based (flammable) products

** Particle size will vary base on tip size, pressure and disinfection product used. Average particle size measured when spraying water ranges from 30-110 microns.

SANISPRAY HP AIRLESS SPRAYERS

WHY NOT TRADITIONAL AIRLESS PAINT SPRAYERS?

1 HIGH PRESSURE CAN OVER-ATOMIZE MATERIALS

- Over-atomization of chemicals can **cause harm** to the applicator and/or people nearby
- Can reduce surface contact dwell times and **affect chemical's performance**

2 BUILT FOR A DIFFERENT APPLICATION

- Paint pumps are not built to spray disinfectants. These disinfectant chemicals require alternate materials of construction for safe and reliable operation

3 QUALITY & SAFETY RISKS

- Chemical incompatibility can attack critical components causing them to weaken and/or fail
- Keep people and employees safe – only use specialized equipment to apply disinfectants, sanitizers and deodorizers

**DON'T LEAVE THE JOB TO CHANCE -
USE GRACO SANISPRAY HP EQUIPMENT**

SANISPRAY HP AIRLESS SPRAYERS

CHANGES HAVE BEEN MADE

1 REDESIGNED AND REPLACED WETTED SYSTEM COMPONENTS

- Alternative metals
- Plating of other parts

2 PERFORMANCE HAS BEEN OPTIMISED TO SPRAY THE DISINFECTANT MATERIALS

- Lower pressure (0-69 bar)
- Specifically selected tip sizes
 - Droplet micron sizes (30 – 110 micron)
- Best coverage and sufficient dwell times

**DON'T LEAVE THE JOB TO CHANCE -
USE GRACO SANISPRAY HP EQUIPMENT**

SANISPRAY HP AIRLESS SPRAYERS

THE SANISPRAY HP DIFFERENCE

SMARTCONTROL

- Performance set for disinfecting applications (0 – 69 bar)
- Full range control delivers either complete coverage on specific objects or fine spray within an area

CUSTOM APPLICATORS

- Airless gun is the most critical component the operator holds all day.
- All wetted parts chemically compatible to deliver long life and safe operation
- 40 cm extensions included for additional reach and to reduce operator chemical exposure

DIFFERENT BY DESIGN

- Recognizable color and brand changes are quickly identifiable as different than a traditional airless paint sprayers
- Easy for channel partners to identify and avoid contact with potentially contaminated equipment

CHEMICAL COMPATABLE CONSTRUCTION

- Critical wetted parts have been upgraded to withstand the harsh chemicals found in disinfectants.
- Delivers safe operation and reliable long life

SANISPRAY HP 20

CORDED HANDHELD SPRAYER

SPRAY UP TO **0.6** LITERS PER MINUTE

□ FINISH SMALL JOBS FAST

- Perfect for areas that require maximum portability

FILL & SPRAY 1.25L FLEXLINER™ BAG SYSTEM

- Easily move from room to room disinfecting with attached 1.25L material container
- Spray in any direction – even upside down

TRIAx™ AIRLESS PISTON PUMP WITH PROCONNECT™

69  BAR
619  Max Tip

ADJUSTABLE FLOW CONTROL

- Full range control delivers either complete coverage on specific objects or fine spray within an area
- 0-69 bar adjustable

□ RAC X® LP TIPS □

- Reverse-A-Clean (RAC®) Low Pressure Spray Tips
- Choose from 9 RAC X LP tips to meet your disinfectant's dwell time and requirements

RECOMMENDED USAGE

60  Liters Or Less Every Week

INCLUDES:

- Fine Mist Spray Tip (313)
- Medium & Coarse Spray Tips (515 & 619)
- 40 CM Spray Extension
- 5 – FlexLiner Bags, Storage Plug, Durable Tool Bag

** Not compatible with alcohol based (Flammable) ingredients

SANISPRAY HP 20

CORDLESS HANDHELD SPRAYER

SPRAY UP TO **0.6** LITERS PER MINUTE

CORDLESS FOR ULTIMATE IN PORTABILITY

- Perfect for areas that require maximum portability

FILL & SPRAY 1.25L FLEXLINER™ BAG SYSTEM

- Easily move from room to room disinfecting with attached 1.25L material container
- Spray in any direction – even upside down

BRUSHLESS DC MOTORS

- Most dependable, long-life motors
- Spark-free operation

TRIAx™ AIRLESS PISTON PUMP WITH PROCONNECT™

69  Max BAR
619  Max Tip

ADJUSTABLE FLOW CONTROL

- Full range control delivers either complete coverage on specific objects or fine spray within an area
- 0-69 bar adjustable

18V DEWALT LITHIUM-ION BATTERY AND CHARGER

- Sprays up to 9.5 liters on each charge

RAC X® LP TIPS

- Reverse-A-Clean (RAC®) Low Pressure Spray Tips
- Choose from 9 RAC X LP tips to meet your disinfectant's dwell time and requirements

RECOMMENDED USAGE

60  Liters Or Less Every Week

INCLUDES:

- Fine Mist Spray Tip (313)
- Medium & Coarse Spray Tips (515 & 619)
- 40 CM Spray Extension
- 2 – 18V DEWALT 2.0 ah Lithium-Ion Batteries & Charger
- 5 – FlexLiner Bags, Storage Plug & Tool Bag

SANISPRAY HP 65

PORTABLE HOPPER SPRAYER

3X PRODUCTIVITY

- At over 3X the production rate, SaniSpray HP 65 allows for faster applications

POUR & GO 5.7L GALLON HOPPER

- Hopper delivers extended spray time along with self contained portability

EXTREMELY PORTABLE SELF-CONTAINED SYSTEM

- Carry sprayer and material together - Lid prevents splashes and spills while carrying

EXTENDED REACH TO SPRAY ANYWHERE

- Add up to 90m of hose to spray anywhere for high production applications

POWERFUL DC MOTOR

- DC motor with spark arrestor provides ability to spray alcohol based (flammable) chemicals

ADJUSTABLE PRESSURE CONTROL

- Full range control delivers even coverage on specific objects or area fine misting

SPRAY UP TO **1.9** LITERS PER MINUTE

INCLUDES:

- SaniSpray HP Gun
- 1/4" x 15M BlueMax II Hose
- 1/8" x 1.4M BlueMax II Whip Hose
- Fine Spray Tip (515)
- Medium & Coarse High Production Spray Tips (617 & 619)
- 40CM Spray Extension

PROX™ AIRLESS PISTON PUMP
WITH PROXCHANGE™

69 BAR **623 T** Max Tip

- Drop-in on-the-job pump replacement

LIGHTWEIGHT SANISPRAY HP GUN

- Allows products to be applied faster to speed up disinfection process

RAC X® LP SPRAY TIPS

- Reverse-A-Clean (RAC®) Low Pressure Spray Tips
- Choose from 12 RAC X spray tips to meet your coating's dwell time and atomization requirements

RECOMMENDED USAGE

200 Liters Or Less Every Week

SANISPRAY HP 130

2 GUN CART SPRAYER

2 GUN PRODUCTIVITY DELIVERED

- Highest production airless disinfectant sprayer available on market
- Simultaneous dual gun performance for maximum disinfection rates

SPRAY FROM ANY CONTAINER

- Extended spraying without refills

EXTENDED REACH TO SPRAY ANYWHERE

- Add up to 90m of hose per gun to spray anywhere for high production applications

SMARTCONTROL ADJUSTABLE PRESSURE CONTROL

- Full range control delivers even coverage on specific objects or area fine misting
- 0-69 bar adjustable

ROLL & GO CART DESIGN

- Easily move sprayer and chemical bucket together

SPRAY UP TO **3.8** LITERS PER MINUTE

INCLUDES:

- 2 - SaniSpray HP Guns
- 2 - 1/4" x 15m BlueMaxII Hose
- 2 - 1/8" x 1.4m BlueMax II Whip Hose
- 2 - 40cm Spray Extensions,
- Fine Spray Tips (2 - 617)
- Medium & Coarse High Production Spray Tips (2 - 619 & 2 - 621)

ENDURANCE PISTON PUMP WITH PROCONNECT™

69 BAR **731** Max Tip

- ProConnect on-the-job pump replacement

LIGHTWEIGHT SANISPRAY HP GUN

- Allows products to be applied faster to speed up disinfection process

RAC X® LP SPRAY TIPS

- Choose from 17 RAC X LP tips to meet your disinfectant's dwell time and atomization requirements

MAXPOWER MOTOR & ADVANTAGE DRIVE

- Longest life platform delivered through high torque brushless motor and powerful drivetrain
- Spark-free operation

RECOMMENDED USAGE

400 Liters Or Less Every Week

SANISPRAY HP 750

4 - 8 GUN CART SPRAYER

PRODUCTIVITY DELIVERED

- Highest production airless disinfectant sprayer available on the market
- Sanitize and disinfect up to 400,000 sq ft from one central location for maximum production

MATERIAL FEED OPTIONS

- Siphon from a 20- to 200 l container or easily fill the 40 l stainless steel hopper

EXTENDED REACH

- Add up to 150m of hose per gun to spray anywhere for high production applications

ADJUSTABLE PRESSURE CONTROL

- Multiple tips provided to meet your disinfectant's dwell time and atomization requirements
- Adjustable from 0-82 bar

HEAVY DUTY CART WITH WHEELS

- Flat-free tires
- For portability and maneuverability

SPRAY UP TO **22** LITERS PER MINUTE

INCLUDES PER GUN:

- 1 SaniSpray HP Gun
- 3x 1/4"x 15m BlueMax II Hose
- 1/8"x 1.4m BlueMax II Whip Hose
- A 40cm Spray Extension
- Fine Spray Tip (617)
- High Production Spray Tips (619 & 723)

STAINLESS STEEL PUMP LOWER

82 BAR

4 to 8 LIGHTWEIGHT SANISPRAY HP GUNS

- Allows products to be applied faster to speed up disinfection process

RAC X® LP SPRAY TIPS

- Choose from 17 RAC X LP tips to meet your disinfectant's dwell time and atomization requirements

QUIET ELECTRIC MOTOR

- 240V/ 16A Supply Power
- 74 dB
- Minimal service, only requires oil

RECOMMENDED USAGE

- Stadiums, parks, arenas, cruise ships, airports, warehouses and other large industrial areas

1900 Liters Or More Every Week

SANISPRAY HP AIRLESS SPRAYERS

CLEANING AND STORAGE PROCESS RECOMMENDATION

- Sprayers should be **flushed with water** after each use
Never store sprayer in disinfectant
- Carefully **following** all **directions** on the **disinfectant label**, including but not limited to any requirements for pre-cleaning surfaces
- **Repeat** the flushing procedure using clean water
- Remove water from pump and system after each use.
Do not use Pump Armor®
- Sprayers should be **completely cleaned, wiped down, and disinfected** after every use and before transferring from one individual or location to another

AS A PRECAUTION, IF IT IS UNKNOWN IF THE SPRAYER WAS PROPERLY CLEANED, WIPED DOWN AND DISINFECTED, IT SHOULD BE TREATED AS IF IT WAS NOT

SANISPRAY HP AIRLESS SPRAYERS

MODULAR REPAIR KITS & MANUALS

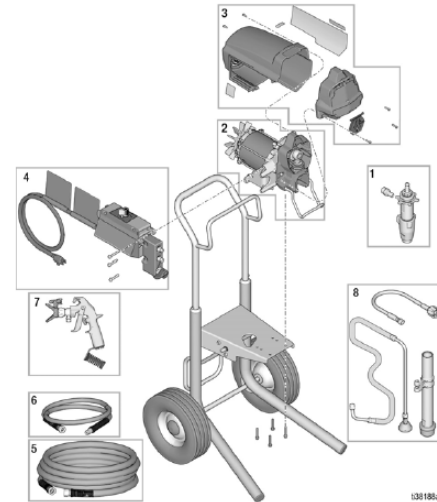

MODULAR REPAIR KITS

- To avoid transmission of infectious germs, SaniSpray HP sprayers are not returnable, and may not be serviceable at distributors or service centers.
- Easy Modular Service Kits available

USER FRIENDLY MANUALS

- Simplified manuals and modular repair process ensure sprayers are ready to quickly apply disinfectant on the next job

Product Leaflet

SaniSpray HP™
High Production Airless Sprayers Designed Specifically to Spray-Apply Chemicals to Sanitise, Disinfect and Deodorise Faster

DELIVERS HIGH SPEED & PRODUCTIVITY
Choose the SaniSpray HP model to fit the site to match job requirements

DELIVERS CONSISTENT ATOMISATION & COVERAGE
Delivers the proper atomisation required to quickly and consistently coat surfaces to disinfect and deodorise efficiently

IS BUILT FOR YOUR APPLICATIONS
Uniquely built with the highest grade materials that are compatible with disinfectants, sanitizers and deodorizers — unlike traditional airless paint equipment

COMES WITH EVERYTHING YOU NEED TO START NOW
Ready to spray out of the box with everything you need — just add disinfectant and get to work

THE OLD WAY

- Inconsistent coverage with dips and crevices
- Additional dip required to clean crevices
- Small reservoirs require frequent filling

THE SANISPRAY HP WAY

CONSISTENT COVERAGE FROM EDGE TO EDGE

- Consistent application coverage delivered in high production or line spray methods
- Complete surface coverage to reach horizontal and vertical surfaces
- Fastest application method — paint
- Chosen for a number of "50" "50" SaniSpray HP sizes to meet spray width and speed needs

Graco EMEA - Contractor
2.09K subscribers

The new SaniSpray HP range is the industry's first high production equipment built specifically for sanitising, disinfecting and deodorising jobs. The range has been designed to deliver consistent coverage, without heavy drips and runs, so that you can achieve specified disinfectant dwell times.

Both alcohol- and water-based active ingredients are compatible.

Find more information about the benefits of spraying disinfectants with the SaniSpray HP equipment on: <https://www.graco.com/sanisprayhpsolu...>
